Sea Education Association
Coloring Book
Are you interested in the ocean?
So are we!

FLYING FISH
At SEA Semester, we teach college and high school students all about the ocean.
We do that with our two tall ships, the SSV *Corwith Cramer* and SSV *Robert C. Seamans*. They’re floating classrooms!

Our students learn how to sail while conducting oceanographic research at sea.

Can you memorize some parts of a sail boat?
They also learn about the marine environment, and how we can help protect it.
They study animals that live in the sea...
... whether they drift...
PUFFER FISH

... or swim...
Maybe one day, you can come aboard as a SEA Semester student too!
Learn more about our high school and college programs at www.sea.edu
