

Sea Education Association
SEA Semester
Preliminary Information

Please read the following carefully. You will have little free time during the Shore Component because of the intensive class schedule; therefore, please consider your preparations well in advance. Additional information concerning your class will be sent **approximately a month** before the program begins.

I. REQUIRED DOCUMENTS AND FORMS

Student Contract and Liability Release. Send this to **SEA, ATTN: Student Services** within two weeks of your acceptance along with your \$750 deposit. You may send a check payable to Sea Education Association or you may charge your deposit/payments by contacting our Business Office at 508-444-1933, or you may pay On-Line. *There will be a 3% fee for payments made by credit card.* Note carefully the conditions of the contract. Keep a copy for your records.

Check the “Expense” Sheet for schedule of payments.

Medical Record. You must have a complete physical within six (6) months prior to participation in the program. It is extremely important to communicate any need for special accommodations on the *Preliminary Medical Accommodations* form and return to SEA immediately. Return the full medical form, properly completed and signed by you and a licensed medical practitioner to SEA, ATTN: Student Services.

IMPORTANT: All medical issues must be brought to the attention of SEA. Without proper authorization, a medical officer or doctor may be unable to render vital treatment ashore or at sea. Please notify us if you have been exposed to a contagious disease, or if any change in your health occurs between the time of your physical exam and the beginning of your program. Be sure to consult your doctor and SEA if there is any possible medical reason that would prevent you from engaging fully in activities at sea or ashore. If you require regular medication, bring a 150% supply. There is not a physician on board the SEA vessels.

Insurance Verification. SEA does not carry medical insurance for students and accepts no liability for medical costs. You **MUST** have coverage for sickness, accident and hospitalization on shore as well as at sea. At least one foreign port will be visited; subsequently, it is **imperative that your coverage extends to foreign areas.** Be sure the information provided on your SEA Medical Record and Student Information is current and complete.

THE MEDICAL RECORD IS DUE IN THE OFFICE OF STUDENT SERVICES NO MORE THAN THREE MONTHS AND NO LESS THAN ONE MONTH PRIOR TO YOUR CLASS.

Passports. It is **imperative** that you have a passport for your sea component. Your passport **MUST** be valid for 6 months beyond the end date of the class. You must bring your passport with you to the shore component. Please **mail us a copy of your passport** along with your “Welcome Aboard” form prior to arrival. If you do not have a passport, apply immediately as it takes 4-6 weeks to process.

II. HOUSING

All students are expected to live on campus in the houses provided. Each house accommodates 10 students. Please take note of the following:

- Students do their own cooking in fully equipped kitchens. The cost of food is included in the cost of housing. SEA will provide each house with prepaid store cards for food purchases. Students in individual houses will plan menus, shop,

cook, and clean after meals as a team.

- Each student is provided with a pillow. Please bring towels, bed linens (regular single bed), blanket, comforter or sleeping bag. There are coin operated laundry facilities.
- No Pets.
- Students may bring cars to campus. A bicycle is helpful to have during the Shore Component (spring, summer, and fall). SEA has some bikes available to students for use while on campus. We also have helmets and locks and access to the Shining Sea Bikeway, a fabulous bike path that runs from Woods Hole to North Falmouth. Students must sign a bike waiver in order to use the SEA bikes.

III. TRAVEL ARRANGEMENTS

Shore. Sea's Campus is located at 171 Woods Hole Road, Falmouth, MA, equidistant between Falmouth and Woods Hole. You may use either Boston's Logan International Airport or T.F. Green Airport in Warwick, RI to fly into the region. Both airports are approximately 75 miles from Falmouth.

Bus. Peter Pan Bus (www.peterpanbus.com, 800-556-3815), serves Logan International Airport. Buses leave each terminal outside the baggage claim areas. Tickets may be purchased on board the bus. Peter Pan also serves T.F Green Airport and has transportation to Providence and then to Falmouth from the airport. Once you get to Falmouth or Woods Hole, you can take a taxi to the SEA campus (a 5 minute ride).

Joining the ship. Students should plan to join the SSV Corwith Cramer or SSV Robert C. Seamans between 2:00 and 4:00 pm on the designated day of departure. Make your travel arrangements accordingly. You will not be allowed to sign aboard unless you have passed all shore component courses, paid your tuition, and submitted to SEA the required forms noted above.

Itinerary. The precise itinerary and intermediate ports of your cruise will depend upon weather conditions, vessel maintenance or repair needs, the unpredictable timing of scientific projects, etc. Though scheduled arrival and departure times are normally met, they are subject to change or delay.

Port Calls. On the average, five to six days are spent in port during each sea component. While ashore, including Woods Hole, you are guests in the community. The dictates of common sense and courtesy should be followed - presentable appearance, politeness, respect for local laws and customs, and mature behavior.

Leaving the Ship. The ships typically arrive as scheduled on the morning of the last day of your cruise by 9:00 AM. Allow time to clear Customs and for travel to the airport. Tickets for travel to and from the ship should be secured in advance. You will receive detailed information specific to your voyage prior to program start.

IV. Curriculum

Students participate in up to five academic courses centered on classroom learning; Oceanography, Nautical Science, and Maritime Studies are taught on shore. Morning classes are held Monday through Friday 8:00 am to 12 noon. Afternoon nautical and science labs, maritime discussion groups, and research proposal preparation typically last three to four hours. All classes are held on the SEA campus. On most days you will be in class from 8:00am to 4:00pm. Practical Oceanography I & II are taught at sea.

Registration: Most students **are registered with Boston University upon arrival. Students from affiliated institutions remain registered at their home schools.**

Transcripts. Official transcripts are available from Boston University upon completion of the program. Transcripts from SEA are sent directly to affiliated institutions. Information regarding this process is available on our website <http://www.sea.edu>.

Computers. SEA has a computer lab with 15 IBM PC's. Internet access is available from these computers. You will be able to access your home school email account if your school allows access from outside your home campus. SEA's campus also has wireless access throughout the campus including student housing. If you have a personal laptop computer, you should bring it for the shore component. You can bring your personal laptop to sea, but be sure you have adequate protection for it while on

the ship. SEA's ships are equipped with computers for research purposes only.

Libraries & Labs. SEA's campus classrooms, library and laboratory are at students' disposal. Students also have access to the world renowned Marine Biological Laboratory's (www.mbl.edu) library 24 hours a day. Scientists from the Woods Hole Oceanographic Institution (www.whoi.edu), National Marine Fisheries, (www.nmsf.noaa.gov) and U.S. Geological Survey (www.usgs.gov) are visiting lecturers.

IV. INSTRUCTIONS AND RECOMMENDATIONS

Physical Conditioning. Get in shape before joining the ship, life at sea can be strenuous. You will enjoy the cruise more and be a healthier, more effective participant. You will also be less subject to stress and injury.

Diet. Please inform SEA of any medically indicated dietary restrictions. Students may not bring food or cook their own individual meals aboard ship. We cannot accommodate special diets that are not medically necessary. Vegetarians and vegans must be aware that fresh produce is limited and many foods are canned or frozen. Food is delicious and ample but choice is often limited.

Money. You will require money for expenses while traveling to and from the ship. Most students bring extra cash to make small purchases in port, experience local cuisine, etc. Money may be deposited with the Captain in the ship's safe. Check with your bank or credit card company about how to get cash in foreign ports. Remember to notify your credit card company of your intention to travel internationally.

Mail. Correspondence and packages may be sent to SEA during the Shore Component. Mailing address for correspondence and packages is SEA, P.O. Box 6, Woods Hole, MA 02543. Please note the Class #. The street address for SEA is 171 Woods Hole Rd. Falmouth, MA 02540. This address should be used for shipping packages via any courier service. We are unable to deliver mail to the ship. Please contact SEA if an urgent message must be conveyed.

Telephone. SEA's main office telephone number is (800) 552-3633. During shore component, there is a telephone in each student house. These telephone extension numbers will be provided with housing assignments when you arrive. Long distance calls may be made with a calling card. During sea component, the ship maintains a daily radio-telephone schedule with the SEA office. Emergency messages may be passed through the Marine Office to the ship but no routine personal messages will be relayed.

Emergency Contact. During working hours call (800) 552-3633. Cell phone numbers of SEA Administrators and/or Faculty for emergency only will be given to you upon arrival in Woods Hole. Please send these numbers to your family.

Communication with Family. As a courtesy please try to keep your family informed of your activities and whereabouts. They will appreciate telephone calls and letters. Upon final departure from the ship making them aware of your travel plans/itinerary becomes mandatory!

Communication with SEA. Be sure to call or write the Student Service Office - Dale Dean x535 (ddean@sea.edu) or Virginia Land McGuire x557 (vland@sea.edu) - if you have any questions. Please keep us informed of any changes in your plans prior to the beginning of your class (including address and phone changes).

WE LOOK FORWARD TO SEEING YOU IN WOODS HOLE!
